

Round sample cutter PS the perfect complement to our basis weight scales

Only a test specimen with a precisely maintained area dimension guarantees the reliable weight determination. That is why SCHRÖDER builds PS specimen cutters for you. Sharp, circularly guided knives produce true-to-size round specimens with absolutely smooth absolutely smooth edges. Even "critical" materials such as thin foils, tissue paper, corrugated cardboard, hosiery, nonwovens, carpets, artificial leather, fluffy or velvety fabrics can be cut without any problems.

The cutting surface is a porous rubber plate into which the blades can safely penetrate. can penetrate.

Standard sizes:

Model PS 100 for round samples of 100 cm².

Model PS 50 for round specimens of 50 cm²

Model PS 25 for round specimens of 25 cm²

Model PS 10 for round specimens of 10 cm²

We manufacture round specimen cutters in all desired sizes from 27 mm to 240 mm specimen diameter and for different cutting depths.
